Henrico County Public Library Now Has New Free Mobile App

Henrico County Public Library now has a new free mobile app. The app can be found in the Apple App store, Android Market or downloaded at <http://henricolib.boopsie.com>. It works on most smart phones and tablets including Apple, Blackberry, Android and Windows devices. Services available from the app allow users to check the library catalog, view a calendar of library programs, locate their nearest library, ask a reference librarian a question, or check the library's Facebook and Twitter postings.

Library cardholders can also check their personal accounts to place holds on materials, see what they have checked out, renew materials, and access online subscription information services.

For additional information, go to www.henricolibrary.org.
