RICHMOND ASTRONOMICAL SOCIETY PRESENTS NIGHT SKY ASTRONOMY AT LIBBIE MILL LIBRARY

The Richmond Astronomical Society and Libbie Mill Library invite the public to join us as we gaze upon the night sky and learn about the fun hobby of amateur astronomy next Thursday, September 28. Enjoy amazing views of the Moon and other celestial objects with high-quality telescopes operated by members of the Richmond Astronomical Society. See craters and seas on the surface of the Moon with wonderful clarity and detail.

A brief presentation on astronomy, and activities for children, will begin at 7:00 PM, followed by viewing through telescopes starting at about 7:45 PM. In case of cloudy weather, our "rain date" will be Monday, October 2 from 7:00 to 9:00 PM. All ages are encouraged to attend.

The Richmond Astronomical Society will also host this event at the Varina Library, on October 23 at 6:15pm, with a rain date of October 24.

This program is offered as part of the NASA@ My Library initiative to engage public audiences nationwide in informal and lifelong learning with the excitement of NASA exploration and discovery. The Richmond Astronomical Society is a partner of Henrico County Public Library in the NASA @ My Library initiative through the Night Sky Network.

Event Details:

Night Sky Astronomy with the Richmond Astronomical Society
Thursday, September 28, 7pm at Libbie Mill Library
2100 Libbie Lake East Street
