FOR IMMEDIATE RELEASE  
May 17, 2013

## **Information is Power at Henrico County Public Library**

Learn about energy savings and the Library's new free check-out program for digital power meters at two upcoming programs. The first program will be held at the Tuckahoe Area Library, 1901 Starling Drive, on Thursday, May 23 at 7pm and the second program will be at Dumbarton Area Library, 6800 Staples Mill Road, on Saturday, June 1 at 2pm. The Henrico County Energy Manager will discuss how to review the Dominion Virginia Power bill, basic electricity concepts, and the benefits of the Kill A Watt 4400 Meters, followed by audience questions.

A limited number of Kill A Watt digital power meters will be available for check-out or hold for Henrico County Public Library cardholders after the first program on May 23. The Kill A Watt meters can measure electricity use over time and determine an average rate of use, or they can measure the instant increase in demand. To use one, the meter is plugged into the wall, and then an appliance is plugged into the meter. For more information please call 290-9038.
